# **ESSO CAR-CHECK SERVICE**

automatic car care at no extra cost...available wherever you see this sign

### WHAT IT IS

### HOW IT WORKS

### HOW YOU GET IT

Esso Car-Check is a modern punch-type card that provides an up-to-the-minute record of the basic services your car needs regularly. It shows by milesage, when each service has been done . . . and when it should be done again . . .

Your Imperial Esso dealer will periodically inspect your Car-Chock card and report on any services your car requires. After carrying out your instructions, he punches out a hole opposite the mittage figure at which each job was done. It takes only a few seconds.

Simply ask for it wherever you see an Imperia Samply ask for it wherever you see an Imperial Esso dealer displaying the Cart-Check Service sign. He will guickly install it for you free of charge. Then you'll be set for miles and miles of carefree driving. Remember—this extra service is exclusive with Imperial Esso dealers.

There's no doubt about it-you'll like the convenience of Cur-Check Service! It remembers, so you can forget, when to have tires rotated, battery checked, oil changed and other services done when they're due. Car-Check is simple, convenient. It's a free service and it can help you avoid costly repairs. Drive in for yours today!

The first aid kit and insurance both have important roles to play in the event of accidents.

Each year, the companies writing ascident and sickness insurance in Ganada pay out more than ninety million dollars (not including automobile accident costs) to policy-holders—a mighty bulwark against unusual financial strain.

It is far better, though, to prevent accidents and mishaps, rather than to deal with the treatment of their ser--and often tragic-efter-effects. That is why insurance companies are constantly seeking ways to stem Canada's mounting accident toll.

Safety pays dividends . . . saves lives, helps to lower your insurance costs. Be Careful.

# Mr. Pepsi-Cola"\*

There is a man in your community we'd like you to know.

He is a local businessman. He owns his own business. He invests his own capital. He pays local taxes. He buys local materials — employs local people.

He is "Mr. Pepsi-Cola"\* - our Pepsi-Cola bottler and yours. He is dedicated bringing you the most wholesome refreshment your money can buy.

In this purpose he is associated with Pepsi Cola Company of Canada, Limited, which furnishes him with the ingredients and prescribes the standard of quality, purity and uniformity to which he conforms.

He is also associated with some 700 other local businessmen like himself, bottling and distributing Pepsi-Cola all over the world.

This voluntary association between free businessmen conforming to a standard, cooperating with each other, building a common body of knowledge, exchanging a common know-how, each operating his own business, is a relationship unique to our way of business. It is truly an example of democracy in action.

We are proud of our family of independent Pepsi-Cola bottlers. They are one of the real strengths of Pepsi-Cola Company of Canada, Limited, and one of the real reasons for the great increase in the popularity of Pepsi-Cola in recent years both in Canada and ahroad. Have a Pepsi.

#### Pepsi-Cola Company of Canada, Limited

RARE, MEDIUM, WELL-DONE By Gam, H. CARVER, Sports Editor

A bunch of the boys were whooging it up talking about spring, fishin' vacations, and what not; must of 'em were ton old to talk about spring's favorite topic.

He was a grizzled old com, who had lived the most of his life on various waterfrants, and what he didn't know about bonts, meters, cts., you could stick in your eye. He was chewing on a large-size cud of local "agrabble" and first verbal injection into the conversation was in the form a mild warning.

"So you've get menor to spend on a bool," he drawled.
"Take an oldiner's advice and think a minute below you plank down your hard-earned each for a bust and molec. Are you getter what you need?"

"h led of you felies who are getting an outleard of the first time will be better off if you be a bit set your choice of those things. You should take four to consideration."

"Yeah," piped up a voice, "what are they,"

What's this about the family," someone inquired.

"If you have a large family," the oldinar resuled, "and plan to do your beating together, you'll need a large crait—a craige, camp heat, because at method a big reached by you plan above trips on the water and up to you cannot be not provided by you plan above trips on the water and up to you recall on ordinary."

"If you decide you want a certain type best but can't afford it, look for a used best. There are many good ones on the market that can be had at prices considerably lower than those of new straft."

The oldliner suggested a boot designed for fishing, the type for fishermen alone. "If you want to burs around the lake fefer work and on weekends you'd be feelink to sock your money in a 33-fost outboard cruiser with cabin accommodations that must up the court," he said.

"Misbbe you want a boot you can fish from and that our children can me during the day to water thi. Out yourself a milling reall hat concept to pull a salar and with a plaintage of fixed obstruction lessing to you you recom to sorve around while fishlar?

"The best practice," he said, "is to consider these points and as lack for a bost that will strike a happy medium. If you come your boat carefully selecting the right moise for it will be a problem. Nosit boat meanteners specify the maxim horsepower boats crash will handle. It's dangerous to go we this mark."

"Remember, too," he said, "if you buy a mojor that is the small for a benk, you won't pet, proper performance, if you buy a child craiter from I the power it deserves. If you buy a spend runahout, only a high-powered, fast engine wil make it perform property. If you buy a small fishing could got a smaller motion, only a new level unquito,"

THE LEPER

"And, hehold, there came a layer and worship, him, saying, Lord, if thou wilt, thou coust make so; closs."

When Jean basked the tick, It used no strange consum, focus perm on histories that neight prhases this programma, focus perm on histories that neight prhases this reputation. His curse seared upon simple liable. "Believe yet hat I am able to do that a mild to do the histories." And when the suffering rudy believed, as did this and the sum of the programma of the histories of the histories of the histories. The Billie sills us nothing of the headpaned of the leger whom Jean made clean by a moch. Nothing of his life before he was strack down by Jepons—shumed to the histories of the home, rotting his tody piecernal.

But there is an apocyphal account of the concernation. But there is an apocyphal account of the concernation. It is said that when Jean paused at the kper's greening to Him conside the gateway to the city that adapt, the additional stranger of the histories of the Father's low, which I have known. At Jean spot, the leger, and his of the histories of the Father's low, which I have known. At Jean spot, the leger, called in his thoughts, memorical the line of I his face and of the department of the histories. I have declared. He had glimped the way of the new of the hand and touched him, spin grain to suffer the angulin of the called and the defeated. He had glimped the way of the hand and touched him, and the hand and touched him, applies to the head of the defeated.

> The Ontario Intelligencer Belleville

Recent years have seen the emergence in Canada of that old world gastronomical hero, the master chef: disciple of the grand and glorious art of haute cuisine. One of the few men in the world today who isn't in a hurry,

the good chef scorns the ready mix, abhors the instant-pudding, rejects the can opener. He is a man dedicated to the art of good eating, fine living. His appearance marks the formal disappearance of the frontier.

# The Man in the High White Hat **Dedicated to Good Eating**

The pastry tube is dear to the heart of the dessert chef and he wields it with the speed and finesse of a master swordsman. Veteran chefs can decorate a 3-tier wedding

The perfect loaf: golden-brown to the eye, sweet aroma to transline the nostrils, crisp crust embracing a melt-in-the-mouth softness. Students at the school learn how it's

Good chefs are made, not born, and years of apprenticeship go into the making. In Montreal, a school for chefs, sponsored by the Quebec government, is helping to meet the high culinary standards created by the increasing

sensitivity of the Canadian palate. Above, a teacher-chef Gaspé salmon en Bellevue is laid out with magnificent extols the virtues of the thirly cent simple food blessed arrisary. The master chef does non-consider the time with imagination and a painch of spice may energe a involved nor the transitionists of his creation.

When they have completed the 2-year course, students are employed by hotels and restaurants as junior chefs. The good ones move up fast; a head chef may command up to \$1000 a month.

-for helping us to mafernise your telephone numbers in Trenton!

Last Sunday morning, Tranton joined the continental telephone network of 2-5 numbers when "EXeter 2" numbers became effective. This change of numbering was another important step in bringing you the fastest, most efficient service in the world during the years absed.

PLEASE REMEMBER TO

make sure of every number by looking it up in your NEW telephone book; dial all five figures on LOCAL NUMBERS; the your FULL NUMBER (EXSES 3-REXN) for bong DISTANCE CALLS; ask your out-of-town

sak your out-of-town friends to use your full number when they call

Giving you the kind of telephone service you want is our job. You want it to be fast and dependable—— and to keep registing better. You want to deal with, pleasant, friendly people who take a real interest in your problems and who are willing to give you a little extra attention.

And that's the kind of service we want you to have. It makes your telephone mean more to you — makes our job mean more to us.

Some 100,000 visitors from Canada and abroad strolled through the National Museum in Ottawa last year. All of them from youngsters to electrically-minded scientists could find something to interest them. Lealie Enid Strut and Peter Judge, above, lingueed long before the life-size polar bear exhibit.

National Film Board of Canada Photos by Gar Lunner

For those who couldn't come to the museum, the miracle of relevision brought the museum to them. A weekly TV program complete with a panel of "Quiz Kids" has kindled the interest of Canadians in their country's storied past.

# National Storehouse for Canada's Past Museum Host to 100,000 Annually

3-year old Leslie Enid sneaks up on 70-million-year-old Anchiceratop: Longirottii, a member of the homed dinosaur family whose story-telling skeleton turned up near the Red Deer River in Alberta.

Charlie, the museum's live mascor, casts a suspicious eye on proceedings as taxidermist Stan Gorham prepares a dead sea gull for the exhibit case.

One of the most important innovations in the 116-year hatcory of Canada's National Museum took place recently with its separation into the Canadian Museum of Human History and the Canadian Museum of Natural History. The new arrangement will give now emphasis to studies on the background of the Canadian people, while the important work in natural history continues.

people, while the important work in natural intrody contamined.

The Misseum of Natural History is a resustre-bose of speciment of the flora and fauna of Canada. Scaffed animals from dainty field nice to glowester of Gerse Plains buildo from part of its fine collection. By concentrating on the natural sciences, the new museum hopes to focus more artenidos on the basic natural responses which support the natural contents.

The Museum of Human History will intensify the study of the evolution of man in what is now Canada. The field to be surveyed it wast, it includes remote prehieteric sites recently unsertited in the Tuicos and Eastern Arctic as well as French, English, Indian and Eksinto Folkore.

Canada's Editions have been much in the public eye in recent years. Their beautiful carvings form pare of the Museum's travelling exhibits presently touring Canada, Europe, the United States and South America.

# Lifeline for Antarctic Expedition

Ductile iron, a research development of Inco, is used for parts on Canadian-made sleds carrying supplies to South Pole.

For generations, metallurgists and foundrymen had been trying to develop a metal as strong as steel and as easy to cast as ordinary grey iron.

After years of research, Inco metallurgists came up with the answer in , the development of ductile iron. Ductile iron is a type of cast iron that can

be twisted and bent without breaking. II has many other remarkable characteristics. For example, in these heavy duty sleds, used by the South Pole

expedition, the ductile iron parts withstand heavy stresses at temperatures as low as 70° below zero F.

Ductile iron is only one of many important products developed by Inco research, For research is as much a part of Inco's operations as the production of metals.

Through research, Inco helps stimulate the growth of Canadian industry and provides jobs in Canada.

# Belleville Office And Warehouse

In tune with rapidly-expanding industrial and business life of Belleville and surrounding area, Canadian General Electric is establishing this new office and wholesale warehouse to provide a modern centre for the distribution of electrical supplies.

This new building includes off-the-street parking and a spa-

clous trucking area for case all transportation. From this wellequipped centre, all types of electrical equipment used by industries, homes and farms will be distributed throughout Eastern Ontario.

Contractors, dealers, and industry generally are invited to inspect and use the excellent counter facilities available to them here at 80 Harriet St., near Wallhridge Road, WOodland 2-5321.

Hot sun rays striking window glass carry quite a punch during summer months. They send room temperatures sour-ing, boost air conditioning costs, and damage interior formithing.

The smart thing to do III to stop sun best outside your house before it can do its damage. Stop it with colorful canvas awnings and rooms stay cool and shady..., draperies and rogs fresh and unfaded. And because there's less best to handle, air conditioning units cost less to buy, less to operate.

Let us show you our wide selection of smart canvas colors and give you a free estimate on the low cost of canvas awaings for your house.

### MEETING OLD PRIENDS

Perhaps much of the disastisfaction in the meeting of old friends comes from the awareness that not only have the old friends changed; they remind us that we ourselves have changed. The far off time 
is which they belong is far off for us also. It may be a painful realization — and bewildering.—Montreal Gasetie.

Another "Big Inch"

Fipe lines have come to play an increasingly important part in Canada's econosis life, and have proven to be an exceptionally profitable medium for investment. The newest and largest of the "hig inches" will be the Trans-Canada line, stretching scross half a continent and opening major markets for western natural gas.

A discussion of the Trans-Canada pipe line and some of its economic implications will be found in the April issue of our Monthly Bulletin, copies of which are now available.

We will be very pleased to send yet a copy of this Bulletin without obligation. Simply complete and mail the accompanying couper.

By R. I. SCOTT SCOTT'S SCRAP BOOK

SIMON of Cyrene

"And at they came out, they found a men of Gyrene. Simon by name: him they compelled to bear his cross."

The saddest and most terrible procession in recorded istory is approaching Jerusalem's Gate of Gardens. Led by a mounted Roman centurion and a small comany of soldiers, and followed by mixed crowd of jerus, curious, and sympathetic specurous, three men drag easy crosses toward the Hill of Shalls where they are better curified.

the law of the Temple, and sought to bring, lints the dark and unablesing thoughts of men the light of their dark and unablesing thoughts of men the light of their dark and unablesing thoughts of the law of Sorovas staggers under the weight of the heavy road. At last, able to go no farman and the law of Sorovas staggers under the weight of the heavy road. At last, able to go no farman and the law of the

This summer, Canada's Arctic patrol vessel, HMCS Labrador, will return for her 4th tour of duty in the Eastern Arctic where clearance divers, better known as "frogmen", will continue to clear underwater obstacles

the arrival of supply ships carrying stores for the men who guard lonely DEW Line outposts. Above, prepara-tions are made to search the approaches to a landing beach. Divers are trailed underwater from ropes attached to either end ill a pole lying across the boat.

Naval "frogman" Lient-Cdr. Ben Ackerman of Peter-berough, Ont., cheecks his gear. The "free-driving" suit the depth of the dive. Consumption of oxygen varies allows much greater mobility since the diver carries his with water conditions and depth of the dive. In a 100-air supply with him. RARE, MEDIUM, WELL-DONE By GEO. H. CARYER, Sports Editor

The asper-diciable Whitby Dunlops, fresh arem two con-posts of the Mghiy-touted North Bay Trappers wath: inte daple Leaf Cardens testight and, if all gess will, they will write right out again with the Eastern Canada sender "A" hamploonbip attached to their collective bell.

New it in their turn in reach behind and feel the tradi-ional wall. And they are far from home. They won't have hat merthern atmosphere use efficials who are alleged to be blood relations. For the salls osould it behind the Dunlops and hat goes for former formen, too.

Meanwhile the Spokane Fyers who have been stilling on the cuth Hay sidellors watching their eastern foremen come to grip, as we awaiting the outcome. Looding over their line-up, you have blink your cyrs and realize you are not looking as Novier, are football router. They may have reputations and must be odd to get where they are, but, individually, they fall to risp bell in this bookery-watery loogies.

Cod. the publishity is wederful. First the westerners called the Dunales "appelars." Hereivon's scribe rebes to sensition. Now there's debbed them the "Cisfordist" team sensitions. Now ther's debbed them the "Cisfordist" team sensition. Now there's debbed them to "Cisfordist" team that the "cisfordist" team that the "cisfordist sensition of the "cisfordist" team to sensition from the meth. Who knows, make that Allian Cup glain slipper in just the right size for Dunlop fict, us to speak.

Take the Corawall Chevies, Friantance. Word from the stawny city has il that Ray Mires and Company are ap-proaching the New York Rangers with the close of setting up-a working agreement along the same lines as the Window Ballstop had with the Block Envis through the Buffalo Blooms of the American Leon.

In addition they have the Guelph Bilimores and the va in Fion Bombers. The over-age laddybucks from these o do not make the pro ranks would be available.

Perhaps the Chavles had better watch their step. It is recalled that the Windoor Buildops were hit where it half "the medicat" when the parent body called two iff their star performers, Johnny Sicaver and Don Ward.

However the Chevies feel such would not be the case with the Rangers since the Providence Rada are the main feed-box fer the Gothamites.

And white on this hockey subject five gets you ten the new sepance or ungar daddy of the Penbroke Lamber Kings omats in his low with the eastern circuit. He has been quoted that he likes the northern set-up, but class tells, and ill the Dunings can come through with the Eastern Canada title, at fast, be will go where the crowde go.

#### MAZARDOUS JOURNEY

Four young Denser men are planning a 4,500-mile cance trip, from Colorado to Maine.

Goré Jinté reaction is surprise that such a journey should be possible. A cance trip starting in Colorado — why that sounds like a move-thosing party in the Sharas. One forgets that the presence of mountains does not pre-induce the existence of rivers, but raibne resumes its Convertions the fact that the asterned by the tribe which referred the white man came, lived north of a them non-existent border.

#### CANAL BOYCOTT PROPOSED

France is reported to favor a boycott of the Sues Canal, tegotiations on future operations break down. Such a move would receive some support in Britain, the Marquis of Salisbury, former government leader in the House of Lords, having proposed just such a step in a let-

"The Times." In one sense, such a boycott already exists. But the U.S. Ill reported to be ready to retract earlier "advice" to American ships not to use the canal until negotiations for

its operation had been completed.

If any such boycott is attempted, it will certainly be a two-edged sword. That if will hurt Nasser is true, since it is will deprive Egypt of a source of revenue which il urgently needs. It will, however, also harm the economics of those meets, it was, nowever, also narm the economies of those mations refusing to use the canal. One's first reaction is that wealthy nations like the U.S., Britain and France would be much better able to bear such burdens than would poverty-stricken Egypt. There is, however, another school of thought which holds that the more highly in-dustrialized a nation is, the more vunerable it is to exnomic weapons. The majority of Egyptians are accustomed to extreme poverty. Loss of revenue from the canal would not greatly increase the hardships to which they

RARE, MEDIUM, WELL-PONE By GEO. H. CANYER, Sports Editor

These Spokane Flyers are an unknewn quantity in the frie cost. But secondar to a story in the Statistry Siar ergler raised as glitting darks for the North Say Trapport or a Whithy Dunloys. Doncha believe it.

On the face of things any club that reaches the Alban Cup finals is to much "sitting duchy" for the opposition as a firstly in a thundersterm. The order would be a nea-way artist, one way or the other, but all the gindisters will know that have meet the Henn.

The Flyers were members of the Western International Lagaps and finished in a dead-heat for first-place with the Trail, B.C., equat. Squakens epitant the Trailers from reinsigh in the loop playsefts and when you consider Trail and three Warwicks, Grant Skily and Dick, and Yops Krilger, well — that doesn't smack toe much is "skilling dark."

He the Flyers Ripped their wings and teak off for Verson. 3. when they mee that team in the effective seen-fineling. The serior went eight games before the Flyers gwi their, with all games played on Verson los. Versons, you remaker, was the defending Allen Cup equal.

Fort William, an "orphan" squad as far as league play goes (they played only axhibition tilis), was the next readshort in Firsts march to the watern champleanth). The Forti or read any great shucks as far as contenders are concern-ed and Eoy McDride, Fivers manager, was asked why the Forti gree his equad a seven-game battie.

#### OLD SHOE STYLES RETURN

About the turn of the century older men wore Congress shoes. They had no laces, but an elastic piece in the side kept the shoes in piace. Those shoes went out a long time ago. Now, they are back again and supposed to be super duper style. They call them bush boots and they are supposed to originate in Australia. Strange how the world goes in cycles, even in shoes.—By W. L. The forthcoming general election has not caught Canada's chief electoral officer supping. For months his staff has been on the alert mintaining a state of preparedness worthy of the most zealous boy scout. Now that the signal has been given, everyone goes to action stations

with the calm efficiency born of careful training. Forms at the ready, a hatily recruited army of canvassers will ring doorbells from coast to coast to see that everyone who has the right gets his name on the voter's list—which this year will top the 9 million mark.

One name that won't be on the list il Canada's Chief Electoral Officer, Nelson Castonguay. Neither he, his assistant, nor the country's 263 returning officers may one. Nor may federally appointed judges, inmates of penal and mental institutions, and tax-exempt Indians.

All rold, some 500 tost of paper will be put to work by Canada's electoral officers when they set out to discover what candidates the electorate have chosen to represent them during the next 5-year-life of Canada's Parliament, National Film Board of Canada Phorus by Frink Royal.

Dynamic Wren Blair, whose verbal calistheales provided him at times with upopularity even within the confines of the eastern circuit, must now be regarded as a prophet with honor in his own country.

We result at a pre-season meeting if the Eastern loop held in Gerawall last year, when Biair, aided and abetied by the Cornwall management, fought successfully for sealet "A" backey in this part of Ontarie.

Blair rose in his five-fost-six wrath. "What 60 you mean, two or three years? Hell, we'll get one this year?"

Further comment was drowned in the accompanying roars of sighter. Even Blair did not believe it. But it was characteristic the man.

The Dunions should not lack for all-set easiers Canada support in their flant drive for the Cup. The western driv-ation, it least most or them, were behind the Dunies in the North Bay series — and it is only reasonable to expect the northern new will be of the castern champions to their first quest for national honors.

So Tuesday spens the final thrilling chapter ill a heckey epic that has exrest for the Dunloys the admiration— albeit some of it gradings— of yout-minded Outsire. Peter Tack of finish and polish of play" has been and will be, it in hoped, effect by their force estermination to win and never-noy-die qualities in this pot o'guld series.

## FLIGHT FROM THE RED FLAG

Communist parties in the West were once composed largely of three fairly distinct groups, what might be termed the professional Communists or party officials, intellectuals and militant labor leaders.

First of these groups in all shattered was that com-

It now appears as if both the British and Canadian Communist, parties are practically stripped down to the "professionasis" who, in spite of their training and discipline, will find whatever influence they have enjoyed in recent years greatly weakened by the final distillusionment of all but the most blind of the intellectual and fellow-travel.

## DOG'S LIFE IN SPRINGTIME

## Does your dog need a tranquilizer pill?

Does your dog need a franquillizer pill?
In the appringtime, when the young man't fancy lightly forms In the thoughts of love and yesteryear's bridge; reads in the synthigh with the storm windows, dog leads a dog's life. In the city, this aimost invariably means the respensance of the leach in some when centres dogs are permitted their freedom during the winter months; owe where they are not legally entitled to roam, few objections are raised in they do so. With the coming of spring, though, the leash it clipped to the collar.

If that happened to a man, his temper would be strained.

The other day an incident occurred which suggested that a dog may view the proceedings in much the same

light.

As we walked by, a beautiful red retriever growled vi-ciously and plunged to the attack, only to be brought to a neck-wrenching halt as he reached the end of a leash attucked III a clothealine

tened in a ciothesilne.

A couple of days later the same relriever was standing on the sidewalk, unrestrained by any Rixm. He wagged his tail in casual greeting and then ignored passers-by. His bad temper had evidently been merely a product of the unnatural restraint to which he had been subjected.

According W "Trade Topica," Issued by the United Kingdom Information Service, "a five-fingered machine described as capable of counting 100 behancies ill seven accords has been developed by a British company." Most of ca are quick willing to undertake that chore without the aid of machinery. Next thing we know, some bright boy machine second.

# Listen to What Its Silence Says!

Ever hear a motor car tell its own story?
Well, just get behind the wheel of sow 1957 Cadillac—head for your favorite streach of highway—and listen!
Of course, the truth of the matter is that you will hardly bear explain. For a 1957 Cadillac in operation is an quiet as human

Of course, the truth of the matter is that you will hardly bear printing. For a 1973 Califlate in operation is as quiet as human still and ingenuity can make it.

The printing of the printing of the printing of the served in the stilling you through the view of its won-slices!

First of all, it will upoak—and most desqueatly so—of the soundard control of the control of Califlate, which per for the car is no scientifically designed that even the cannables wided in held to it gentle whiteper, per every appear of the cars's belificant professionage open about its work in possible harmony.

And it will reveal the care and the shill of Califlate oralismanshlp. For even on the most septemal all tyways, it is impossible to perceive the alightest trace of obey vibration.

And imagine, no, what this extraordinary quiet promise way of driving satisfaction.

If promises ret and eleasies, for instance . . . with perfect fre from distraction.

in untraction.

It promise asspanies ship ... with conversation that is wonderfully early and natural

And it promises depends silly ... for a Cadillac's elence is a
telling tribon to its quality of materials and so the character of
its workmantship.

If you have yet to sit at the veloci of a 1987 Caddine and hear this wonderful story for yourself, then we urge you to delay no longer in doing so.

We hope you will visit your Caddine deader goon—spend an hour on the highway—and listen to the contribuquent seepangs a motor car ever delivered on III own behalf!

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The top names in wrestling will be featured on the first wrestling card of the season in this city. The explosive action provided by the professional mattern will be presented. Friday, May 2, at the Memorial Arens.

The remaining two heavyweight bouts will feature grapplers equally as well known as Miniski and Farmer Boy. Baron Gattoni, the bearmer Boy. Baron Gattoni, the bearmer Boy. Baron Gattoni, the bearmer Boy. Baron Boltman, will coilide with Jack Pewik, and Pat Flannigan, agile Toronto grappler, will come to grips with leering Lee: Henning.

It's a far err from hammer-lecks to harmony, but the two merry mixtrelects in this creati-able personality known as Furner PARMER BOY

Boy, For this young, dis-foot-pender has been endowed with exceptional intent in diverse realize of verselling and districts.

Obviously never one ill do things by halves, Farmer Roy was raised on two farms. He attended school in Haddonfield, N.J., was a collegate wrestler for four years and won the New Jersey state champlonathy. Me wrested two more years while serving with the Marines before turning professional.

This versatile fellow was also a member of the All-Marire Corps Ritle and Pistol team which compried III matches at Camp Petry.

Those big legs of his account for his prowess in track events, which he specialized in the mile. He played some high school thall but was more interested in wrestling and singing.

Coming from a family who like to sing, Farmer Boy made his first vocal vesture with the Haddonfield Cheval Society, In high shilled he had the lead role in the musical "Down in The Vallef," and continued his singing in the Harino Corpo, performing with Johnny Long's band.

Since them he has appeared in club, radio and TV shows, toctading the Celebrity Club in St. Louis. He expects to make a guest appearance at the Town Casino in Buffalo soon and is leading forward to making recordings.

"People have called me 'Farmer' as long as I can re-member," be chuckled. "I guess I'm just a country boy and the furm haza't rubbed off me yet."

His wrestling idels are Waipper Walson. Pat O'Conner Lou Thesz. His sop singers are Bing Crooky, Harry Bel-nie and, pep. Erica Presier," is desire Presier's connecta-tiveria," said Farmer, who has nothing against money,

While he sings everything from serious compositions to rock 'n' roll (he's made 'em squeel, ico), he prefere halled types that tell a story, such as "The Birth ill the Bloom," ami "Galway Bay."

Does he prefer wreatling or singing? He'd like to be to be to be the both and doesn't think one need interfere with the other. He'd merty like to be a combination of Eddle Place and Whilpper Waton. He makes you feel he'll do it, too.

At the moment, his most absorbing aim ill testing opposith the type of bars that will make them sing "Uncle!"

he 1957 matches will be played.

The Cemetery is a non-profit organization and is owned and operated by the plot owners.

Although the government requires only 35% 
purchase price of lots be set aside for perpetual care — Belleville Cemetery sets aside 40%

The Cemetery has gradually improved its grounds, and has added new buildings and fences, which are now completed and fully paid for. Flower beds and shrubbery are being added each year. New sections are being laid out, one of which is planned as a garden type area.

E Pre-need plots can be purchased on instalment plan.

With all these benefits the lots are now being sold as low as anywhere in the Province, namely— \$40.08 per grave, including perpetual care, for 2, 3, 4 or 6 grave lots Single graves \$25.00.

"ALL THINGS ARE CHANGED, AND WE CHANGE WITH THEM"

In recent years there has been a great change in the practice of medicine and pharmacy.

To keep pace with this change we pharmacists are continuously studying the drug and medical journals. As soon as a new drug ill released we not only stock it, but learn all about its dosage, action, proper com-pounding, and preserva-tion.

That II why we are pre-pared to compound any prescription, prescribed by any physician, no mat-ter how distant, exactly as he specifies.

Marce Bob Trupie, tabby-in-chief of Belleville's sethall cale leads the 1957 edition into the CNB Recreation Park errow for their first practice grind of the peaces.

He has surrounded binself with a galaxy of players most if whom are youthful veterans of the club which won the OAMA stermediate AA championality two years age and which was inclusted tax? peer by a Peterborough team.

Tends will rely makely on the other pickels arm of Via Alloc, who exceed to their birteent in this two years are, this year for the pickels are this two years are, this year for the pickels are the pickels are years to be a back to the pickels are and its safet with the finish-round to the pickels are the pickels are the pickels are ordered to the pickels are the pickels are the pickels are articulating invites who must remain anonymous at the me-mont.

The injury greatin which rede herd on Trumple for the past two or three years will have to look for another visiting this sensen. For Marce Robert has given up the idea of work-ing behind the pints in a steady mapacity. He is going to larve the estelling stirts in the emphie hands of Earl Coun-

He will however be around in all times and will play in it he calls a "pinch-swinging" capacity.

Bob stylects to parade in the new Robest revuters such players as Twi Batchine, Harry Wardhardt, Stan Crostress, Gardy Deservan, Rack Culter, Rose Rasper, Costana, John Coser, Ken Deselvery, Raity Raches, Opton, Deep Sone and Bayis, Ids sure he like an evitestating outfielder from the city of Troughs by the name of Al Smith.

Also around and again joining the Bobcats board of strategy will be the Ole Ciucker, Herble Henn, and Jim Ethler. The "Cata" will go into the OASA intermediate "AA" classification.

A lady in distress is a sad sight to see, But in this case it's only a cinder and her "Mr. Druggist" will soon have it out. There are many times when your neighbourhood druggist is called upon to come to the rescue. Sometimes it's only a cinder or a scraped knee.

But more frequently, it's a case of quickly filling an important prescription when illness or accident strikes you or your family. In such emergencies, a druggist is a good man to know. Aren't you glad you have a friendly, dependable druggist in your town or neighbourhood?
